Another criticism is that a website is not an effective pregnancy prevention program. This article needs additional citations for verification. After the second confirmatory negative pregnancy test, the FCBP must also take an online comprehension test to ensure she understands the requirements of the Program. Retrieved from " https: Though prescriber and pharmacy populations have become more familiar with the requirements of the iPLEDGE Program over the years, and the initial issues with the system have subsided, the nature of the restrictive distribution program continues to cause inconvenience for some patients. After that point they have to see their doctor for another day prescription. Articles needing additional references from January All articles needing additional references Articles containing potentially dated statements from April All articles containing potentially dated statements All articles with unsourced statements Articles with unsourced statements from October Articles with unsourced statements from July FCBPs are required to pick and use two birth control methods abstinence included , and must take doctor-administered pregnancy tests in two consecutive months. When surveyed, many pregnant women reported that their physicians had attempted to downplay the risks of isotretinoin or violated the standards in other ways, such as failing to inform women they needed to use two forms of birth control or allowing them to substitute a single, less-accurate urine pregnancy test conducted in the doctor's office for the two laboratory-conducted blood pregnancy tests mandated by SMART. Males and FnCBPs must see their doctor every month, but don't have to take the pregnancy or comprehension tests. Food and Drug Administration. Accutane is an extremely dangerous teratogen; Launch and pre-launch difficulties were common with the system jointly built by the drug manufacturers with the assistance of Covance, Inc, and approved by the FDA. This page was last edited on 6 March , at Mar 30, - The patient can fill the prescription if all program requirements are met. Days 8 to 30 the patient will not be able to fill the prescription, as the 7-day window will have already passed. The pregnancy test .. Do I need to see a patient's iPLEDGE ID card before I can fill an isotretinoin prescription? No, all you, whether an exposed fetus has been affected. IMPORTANT NOTICE. Use only isotretinoin products approved by the US Food and Drug Administration. Fill isotretinoin prescriptions only at pharmacies that are licensed in the United States and are registered with and activated in the iPLEDGE program. Reference ID: Mar 10, - Today I went to fill my accutane prescription. I had previously gone on Saturday to do so, but they did not have my generic (i have no prescription drug coverage, so thats kinda important). Anyways, after a curiously long period of waiting for my pharmacist to return with the pills, she instead came back with Accutane And Ipledge System (Prescription Fill).
