Pravastatin 40mg tablets once daily. Jul 9, - Last year 60million prescriptions for statins were handed out last year with that figure set to rise as GPs are urged to offer more patients statins to prevent heart attacks. NHS spending on statins is currently about pounds sterling million per annum and rising at an annual rate of 30%. Although generally considered to be a cost-effective treatment for hyperlipidaemia and cardiovascular disease, given the high and rising expenditure on statins in the UK, there is a pressing need to ensure. atorvastatin where simvastatin 40 mg would cost ?11m. However, when the atorvastatin patent expires, high dose atorvastatin (40 mg and 80 mg) will become a best buy, and much of the annual expenditure of ?m on rosuvastatin and ezetimibe will be wasteful by comparison. Losartan. In March , losartan came off.
