Last edited by sekio; at The physical withdrawal from the drug is nothing short of agonizing pain. My dr told me some generic companies have little to no oversight some not all and almost never have the full dosage they claim like 10mg as generics go for cheap quantity not quality. Who We Are About the Foundation. Originally Posted by sekio. Couldn't post in proper forum please move. Flip through the Booklets. They are manufactured to react on the nervous system in the same way as drugs derived from the opium poppy, like heroin. Some people may notice no difference, but millions of people do. Suddenly I felt relief, it felt like I took 2 of the mylan generics. Now I just wonder why Norco is so much more expensive Oxycodone has the greatest potential for abuse and the greatest dangers. Work with others to help spread the truth about drugs. Meperidine brand name Demerol and hydromorphone Dilaudid come in tablets and propoxyphene Darvon in capsules, but all three have been known to be crushed and injected, snorted or smoked. Sales and production of this drug have increased significantly in recent years, as has its illicit use. Vicodin (hydrocodone/acetaminophen) is a combination of the narcotic hydrocodone and non-narcotic pain reliever acetaminophen used for the relief of moderate to moderately severe pain. Our Vicodin Side Effects Drug Center provides a comprehensive view of available drug information.
