As a protein-bound drug, Piroxicam may alter the effectiveness of other protein-bound medications, such as phenytoin, valproic acid, oral antacids, salicylates, sulfonamides, and sulfonyleurea antidiabetic compounds. Send your prescription Post your prescription via recorded delivery to ChemistDirect. Direction details will be available on your medication container. Feldene Gel is a topical anti-inflammatory gel for temporary or short-term relief of soft tissue injuries, including sporting injuries, sprains and strains. Feldene Gel 60g is a private prescription item. Therefore the only time we can supply an increased quantity of a prescribed medicine is if the doctor prescribes that quantity for you. Apply 1g approx 3 cm of Feldene Gel to the affected area times per day for up to 2 weeks. But still pharmacists cannot dispense the item as a pharmaceutical benefit unless it has the necessary Authority code. You must first place the order and then contact our pharmacists within 48 hours on In the event that you do not do this, the product will be deleted from your order and the balance of your order will be dispatched. At which point your order will be dispatched. Piroxicam can be extremely toxic if administered together with Methotrexate, and may decrease the efficacy of furosemide. Any prescriptions from any other state cannot be filled and will be returned in the mail. Piroxicam Potential Side Effects Piroxicam should be used with caution in dogs with cardiac issues. Post your prescription via recorded delivery to ChemistDirect. If used with aspirin or other anticoagulants, Piroxicam may increase the risk of bleeding, and may raise chances of gastrointestinal ulceration when administered in combination with biphosphonates, aspirin, or corticosteroids.
