Oct 11, - I was going to say the same thing as Kaismama. Abreva will help a cold sore heal faster but it is not the same thing as Zovirax or acyclovir. Abreva is not an antiviral like acyclovir. For that, you need a prescription. I wish they would make acyclovir topical OTC. If you have genital lesions or multiple lesions, hold an ice cube on it for as long as you can stand the pain. People who have used this remedy say it really works. Another more proven treatment is to use Zovirax ointment (Acyclovir). This is available in ointment form over the counter for cold sores and is the main line of treatment for epithelial herpetic keratitis of the eye. Jump to How to Treat Ocular Cold Sores - This can be in the form of a tablet, a gel or ointment, or even medicated eye drops. The best eye drops for a cold sore of the eye are antiviral drops. These drops will need to be prescribed by a doctor. However, there are over-the-counter (OTC) eye drops that can help with the.
