Multum's drug information does not endorse drugs, diagnose patients or recommend therapy. Seek emergency medical attention or call the Poison Help line at 1-800-234-2239. Avoid washing treated skin or applying other skin products for at least 1 hour after applying this medicine. It works by killing sensitive bacteria, stopping the production of essential proteins needed by the bacteria to survive. Apply to your entire face every night at bedtime. Call your doctor if skin irritation becomes severe or if your acne does not improve after several weeks of using this medicine. Avoid exposure to sunlight or tanning beds. Do not apply this medicine to sunburned, windburned, dry, chapped, irritated, or broken skin. This medicine should not be used on a child younger than 12 years old. Avoid getting this medication in your eyes, mouth, or nose or in the creases of your nose, or on your lips. How should I use clindamycin and tretinoin topical? If you have diarrhea that is watery or bloody, stop using this medicine and call your doctor. Your pharmacist has information about clindamycin and tretinoin topical written for health professionals that you may read. Drug information contained herein may be time sensitive. If you are at an office or shared network, you can ask the network administrator to run a scan across the network looking for misconfigured or infected devices. Remember, keep this and all other medicines out of the reach of children, never share your medicines with others, and use this medication only for the indication prescribed. What can I do to prevent this in the future? Apply sunscreen SPF 30 or higher every morning and throughout the day as needed. CVS Pharmacy Patient Statistics for Clindamycin: Topical gel(1%) Clindamycin Phosphate 1% Topical Gel. Reported Side Effects for Clindamycin Phosphate 1% Topical Gel. Clindamycin is a topical antibiotic gel that is used to treat bacterial infections such as severe acne. It prevents the growth of bacteria on the skin. This medicine may also be used to treat other conditions as determined by your doctor. Read More>>>. Clindamycin 1% Gel 15g. Dalacin-T topical solution works by inhibiting acne-causing bacteria from producing proteins that are essential to them. Without these proteins the bacteria are unable to replicate and increase in numbers. After treating the affected skin topically with clindamycin, any remaining bacteria will eventually die out or be destroyed. Clindamycin is classed as a "tetracycline" antibiotic - this is the most commonly used type of antibiotic for the infections that are associated with acne. Dalacin T (Clindamycin) 1% Topical Solution Dalacin It will not be suitable if you are allergic to clindamycin or other tetracycline antibiotics, or any of the other ingredients. Buy Clindamycin Topical Solution for the treatment of Acne at the Lowest Price Guaranteed from unahistoriafantastica.com December New evidence suggests there is a risk that using this topical antibiotic on its own long-term increases the chances of antibiotic resistance. An alternative is Duac, which contains the same antibiotic (clindamycin) combined with a mild peeling agent, with less chance of antibiotic resistance. Another alternative. unahistoriafantastica.com - Buy Topical Liposomal Gel of Clindamycin: Formulation and Evaluation of Topical Liposomal Gel of Clindamycin Hydrochloride book online at best prices in India on unahistoriafantastica.com Read Topical Liposomal Gel of Clindamycin: Formulation and Evaluation of Topical Liposomal Gel of Clindamycin Hydrochloride.
