I recommend not using sites you found easily from the likes of google and forums as these are most likely scams. Just wait out the weekend. Wait for someone to offer it to you, don't go looking as chances are all the places you find are scams. Also - legality issues. If so, that makes more sense. There are too many scams out there. It's possible to get practically any drug online, you just need to have a legitimate source. Even if you ordered it right now, you wouldn't get in in time I don't think. Are you talking about someone asking you in person? It'll be well worth it. You're better waiting for someone to come to you. What's that supposed to mean? Plus, it'll give your body a rest. Going without them for that long after being on them everyday for so long sucks to say the least. I would be more skeptic of someone offering me oxycodone from another country
Aug 14, - The hardest part of scoring drugs in the age of the digital black market? As I was reporting my profile of the Dread Pirate Roberts, the entrepreneur behind the booming Silk Road black market for illegal drugs, Forbes tested the Bitcoin-based drug-buying process on the three most. Jun 8, - Has anyone ever actually tried to order a prescription med (without a prescription) online from overseas or from one of those sites claiming to have a I also ordered 2 mg alprazolam in from a vendor that was purportedly in the U.S. and I got them only to find they were fakes.
