Wait until these conditions have healed before using Renova. Using larger than necessary amounts of Renova will not speed results and can cause an overdose. Do not use this medicine on open wounds or on sunburned, windburned, dry, chapped, or irritated skin. Avoid the use of other skin products on the treated area for at least 1 hour following application of Renova. Dosage Information in more detail. Use Renova exactly as your doctor has prescribed it for you. Do not use Renova for longer than your doctor has prescribed. No Reviews - Be the first! Gently wash your face with a mild soap, pat the skin dry, and wait 20 to 30 minutes before applying the cream. Tell your doctor if you are breast-feeding a baby. Also avoid using Renova in wounds or on areas of eczema. Renova cream is effective in minimising facial skin roughness, facial mottled hyperpigmentation and fine facial wrinkles. Sometimes, dermatologists prescribe Renova cream for treating skin conditions such as acne. Renova cream works excellently for some patients while others do not benefit much from Renova.
